PRESENTING APEX COMFORT FOOTWEAR
QUALIFYING FOR THE THERAPEUTIC SHOE BILL
**EXPLANATION OF BENEFITS**

**MEDICARE’S THERAPEUTIC SHOE BILL**

Medicare covers diabetic shoes, inserts and modifications for program beneficiaries only if the following criteria are met:

(a) the patient has diabetes and one or more of the following conditions:
   - Previous amputation of the other foot, or part of either foot, or
   - History of previous foot ulceration of either foot, or
   - History of pre-ulcerative calluses of either foot, or
   - Peripheral neuropathy with evidence of callus formation of either foot, or
   - Foot deformity of either foot, or
   - Poor circulation in either foot

(b) the patient has a prescription for a particular type of footwear (e.g., shoes, inserts, modifications) from a podiatrist or physician who is knowledgeable in the fitting of diabetic shoes and inserts.

(c) a “Statement of Certifying Physician for Therapeutic Shoes” from a physician who manages the patient’s diabetes, which certifies that the patient (a) has diabetes mellitus, (b) has at least one of the qualifying conditions (see above), (c) is being treated under a comprehensive plan of care for his or her diabetes, and (d) needs diabetic shoes.

**Coverage Limitations**

For Medicare beneficiaries meeting the criteria described above, coverage is limited to one of the following within 1 calendar year:

- 1 pair of off-the-shelf depth shoes and up to 3 additional pairs of multi-density inserts.
- 1 pair of off-the-shelf depth shoes including a modification, and up to 2 additional pairs of multi-density inserts.
- 1 pair of custom-molded shoes and up to 2 additional pairs of multi-density inserts.

The above information is as noted by PDAC. Persons and entities participating in the Medicare program are responsible for understanding all applicable Medicare policies before submitting claims for payment to the program, and you should use this publication only as a guide. Justin Blair & Company does not in any way guarantee that any footwear represented will necessarily be reimbursed regardless of its qualifying nature.

**SHOE STYLES**

**AMBULATOR - STRAIGHT LAST**
- High, wide toe box
- Soft, safe linings help protect the foot from injury
- Smartgris™ polyurethane soles

**HEAT MOLDABLE ORTHOTICS**

Sizing (Full Sizing Only)

Men’s: 6 - 16
Women’s: 4 - 13

**T40668**

Multi-density orthotics feature a conformable Plastazote 1/8” top cover. The ThermoSKY EVA 3/16” base is light-weight, durable, and heat moldable. Designed to support the longitudinal arch and unload stress at the ball-of-the-foot, while sitting naturally in the shoe.

**T40664**

Conformable 1/8” Plastazote top cover with a base made from ED-9 Polyether-diol urethane, a state-of-the-art heat moldable base compound that absorbs shock forces and cushions the plantar aspect of the foot. Supports the arch and unloads stress at the forefoot while sitting naturally in the shoe.

**T40777**

1/8” Plastazote top with an ED-9 Polyether-diol urethane base, which is a moldable compound that absorbs shock forces and cushions the plantar aspect of the foot.

**APEX SEAMFREE SOCKS**

Apex Seamfree socks are recommended by doctors and pedorthists for diabetic foot protection. The socks are woven from a thin yet strong enough acrylic yarn that allows for a proper shoe fit, as well as from soft spandex to ensure they stay up for the duration of the day. Apex Seamfree Socks are made from soft, hi-tech acrylic fibers that wick-away moisture from the foot. Safe for those with diabetes and poor circulation, they are available in extra-wide for patients who suffer from edema. All styles and colors available in small, medium and large sizes.

Men’s Sizes: Small (3 - 7), Medium (8 - 11), Large (12+)
Women’s Sizes: Small (4 - 8), Medium (9 - 12), Large (13+)
